

RFCL Rolls Out Vaccination Drive at RFCL Plant Site for Employees and their Families

Shri V.K.Bangar, General Manager-Projects (I/c), RFCL and other higher officials of RFCL monitoring the vaccination drive

Ramagundam, 24th August, 2021

Ramagundam Fertilizers & Chemicals Limited successfully conducted a vaccination drive at RFCL Plant Site, Ramagundam. Subsequent to the earlier efforts to get its employees vaccinated at the local district health care centers, the said drive was arranged at the plant site for the convenience of the employees in collaboration with the District Health Authorities.

Ensuring to keep all the hygiene and safety standards in check and keeping government guidelines and industry body guidelines in place, the vaccination drive was conducted for all the employees, their family members and the contractual/ temporary workers.

Speaking about the drive, Mr. Raja Sekhar K, an employee of the company says “the drive has helped the company staff and their families to get vaccinated at ease amidst hectic schedules. Moreover, the initiative is appreciable as it helped the contract workers as well.”.

Another employee Ms. Sangeetha Sarkar, says that “instead of waiting in long queues and for long hours to finish the registration process, this vaccination drive was smoothly conducted following all the COVID-19 guidelines”.

As India is still battling with the pandemic, this initiative was organised to ensure 100 percent vaccination to all the employees and the entire eco-system of RFCL.
